

The professional drawing tools for sport

If you need
easy, fast, accurate,
simple drawing tool,
Powerful reports, web pages export,
your best choice is the
SportDraw from www.sportcode.co.yu.

Drawing for **Basketball, Volleyball, Handball, Soccer, Waterpolo.**

Program is used to draw drills, tactics/strategy of offensive and defensive plays and to show animation of it, or to print report. Create your own practice planner, plays from scouting. Multi languages is supported.

Program support:

- Linear and curved lines for all 5 types of lines,
- Balls,
- Triangles as obstacle objects,
- Text,
- Shadows,
- Deleting object,
- Changing colors.
- Linear movement, curved movement for players and balls.

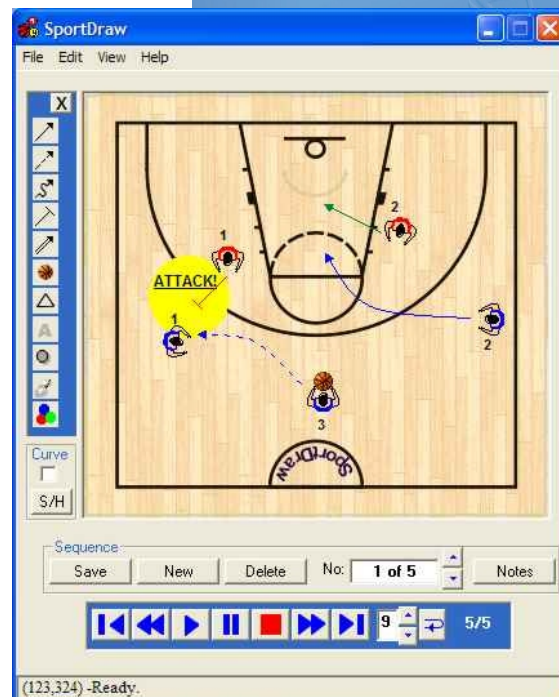

Check "curve" and select line and draw it as curved line or move player or ball or both and program will track curved movement. Button "S/H", show/hide is used to show curved movement.

- Easy management of sequences-pictures
- Animation with speed control in 5 steps

Program offers powerful reports:

- Title and headline for each document
- note for each sequence-picture of drawing
- reports with bigger picture
- reports with smaller picture
- reports can be exported in HTML format - web pages
